If corn with moisture greater than 17% and less than 20% is delivered during dry corn receiving hours, it will only be accepted if it is grade 2. If it is grade 3 or higher, it will be rejected.

Moisture adjustment discounts and shrink will be applied to deliveries with moisture at or above 15.5% in accordance with the "Moisture Adjustment Chart for Jungbunzlauer Canada Inc.

Corn at or below 13.5% moisture will be rejected.

Any applicable discounts and shrink will be factored into the price for that particular load of corn.

Special Note: Buyer has the right to reject any shipment of corn at its discretion that does not meet contract specifications or which is adulterated. Any corn that is musty, contains insects, sour, heating or COFO are all subject to rejection. All corn must have no more than a maximum of 10 ppb aflatoxin and 2 ppm vomitoxin.

*** NOTE:

Grade 4 REJECTED (unless accepted at buyer's option at \$8/mt discount)

Grade 5 REJECTED
