For each side of the field on which GMO corn is planted, you must remove border rows at harvest time and exclude those rows from the corn you deliver to Ingredion. If the GMO corn is within 160 feet of one side of the field, you must take **at least 16** border rows off that side of the field. If the GMO corn is between 160 and 600 feet from one side of the field, you must take **at least 8** border rows off that side of the field.

Planter Cleaning Dates

Enter the date(s) that you cleaned your planter(s) before planting the seed for the Ingredion crop. The equipment should be cleaned such that no GMO corn or soybeans remained on or in the planter.

Field Maps

You must submit maps of the fields in which you have planted corn for Ingredion, if those maps are not already on file with us from previous years. Any kind of map that shows the field location and field name is acceptable. To submit paper maps, mark the fields and their names on the maps and mail them to:

Ingredion, Cardinal c/o Tom Lynch
4040 James Street
Cardinal, ON K0E1E0

If you would like to send your maps by FAX, please attach a cover sheet with your name and return telephone number. FAX the maps to **(613) 657 3138**.

If you would like to submit electronic maps by email, you can send attachments in any standard file format. This includes JPG, JPEG, TIFF, GIF, BMP, PNG, PCD, or PCX. They may also be embedded in an Adobe PDF file or a Microsoft Word DOC file. Email the files to: tom.lynch@ingredion.com

Personnel Involved in Production

If anyone other than the contracted grower is involved in any aspect of planting, harvesting, storing, transporting, or handling the contracted corn, the grower is responsible for training those people in the proper methods for minimizing contamination with GMO and off-type corn under the TrueTrace program.

Please print below the names of all people involved in PLANTING the 2020 crop and the date on which they reviewed the TrueTrace procedures. Each person must then initial the form next to his/her name.
